

EDUC 514 Commercial Rubric

Student:

	Exemplary	Proficient	Partially Proficient	Incomplete	Points Earned	Comments
Project Proposal 5 pts.	Project goal is clearly identified and thoroughly explained. California Content Standards listed. (5)	Project goal is identified and explained. California Content Standards listed. (3)	Project goal is identified and partially explained. California Content Standards listed. (2)	Project goal is not identified and/or explained. California Content Standards not fully listed. (1)		
Production Organization Document 5 pts.	Creativity and original content enhance the purpose in an innovative way. Scenes are described in detail. At least five shot types are listed. (10)	Accurate information is provided succinctly. Scenes are well described and explained. Five shot types are listed. (8)	Some information is inaccurate. Scenes are vaguely described with little detail. Three or four shot types are listed.(6)	Information is inaccurate. Scenes are poorly described with little detail. (3)		
Storyboard 5 pts.	Provides relevant information and establishes a clear purpose. Clearly identifies the shot type, the subject, and includes a sketch of each scene. One index card is used for each camera angle. (10)	Describes the topic. Identifies the shot type, the subject, and includes a sketch of each scene. One index card is used for each camera angle.(8)	Somewhat engaging, and provides a vague purpose. Partially identifies the shot type, the subject, and includes a sketch of each scene. One index card is used for each camera angle.(6)	The purpose is vague and unclear. Inconsistently identifies the shot type and the subject. One index card is not used for each camera angle.(3)		
Rough Cut (due wk. 6) 10 pts.	Every scene is filmed, uploaded to the computer, and imported into video editing software. Shots are placed in order, and project is complete enough to share with others to solicit feedback. (10)	Every scene is filmed, uploaded to the computer, and imported into video editing software. Most shots are placed in order. Others are able to solicit feedback. (8)	Most scenes are filmed, uploaded to the computer, and imported into video editing software. Most shots are placed in order. Others are able to solicit feedback. (6)	Most scenes are not filmed, uploaded, or imported into video editing software. Shots are not placed in order. Others are not able to solicit feedback. (3)		
Audio 10 pts.	Presentation is recorded in a quiet environment without background noise and distractions. Sound levels of voice, music, and effects are at consistent levels, well-balanced, and enhance the presentation. Music enhances the mood, quality, and understanding of the video. Music is licensed for noncommercial purposes (cc-by-sa) via Creative Commons. (10)	Presentation is recorded in a quiet environment with minimal background noise. Sound levels are consistent and well-balanced. Music provides supportive background to the commercial. Music is licensed for noncommercial purposes (cc-by-sa) via Creative Commons. (8)	Presentation is recorded in a semi-quiet environment with some background noises. Sound levels are occasionally inconsistent. Music provides somewhat distracting background to the commercial. Music is licensed for noncommercial purposes (cc-by-sa) via Creative Commons. (6)	Presentation is recorded in a noisy environment with constant background noise. Sound levels are inconsistent and highly distracting. Music is distracting to presentation. Music is not licensed. (3)		
Video Quality 10 pts.	Lighting is natural. Picture is well-lit, color corrected, and white balanced. Graphics enhance meaning and follow the rules for quality graphic design. Images are high resolution, eye-catching, and licensed for noncommercial purposes (cc-by-sa) via Creative Commons. (10)	Lighting is natural. Picture is well-lit. White balance has minor flaws. Graphics reinforce content and demonstrate functionality. Images are high resolution, and licensed for noncommercial purposes (cc-by-sa) via Creative Commons. (8)	Lighting is somewhat distracting to the presentation. Picture is occasionally poorly lit and is not white balanced. Graphics sometimes enhance the presentation. Images are medium resolution, and licensed for noncommercial purposes (cc-by-sa) via Creative Commons. (6)	Lighting is distracting to the presentation. Picture is not white balanced, nor color corrected. Graphics are unrelated to the video. Images are low resolution or not licensed for noncommercial purposes (cc-by-sa) via Creative Commons. (3)		
Editing 20 pts.	The video maintains a consistent, brisk pace. Transitions are smooth. Effects are used sparingly. Video is precisely 29 seconds in length. Content is appropriate for grade level. (20)	The video maintains a consistent pace. Transitions are smooth. Video is 28-30 seconds in length. Content is appropriate for grade level.(16)	The video loses momentum with gaps in audio or video. Transitions do not enhance the video. Video is 25-35 seconds in length. Most content is appropriate for grade level.(12)	Transitions are abrupt and edits are distracting. The video has several gaps in audio or video. Video length is 20-40 seconds in length. Content is not appropriate for grade level. (6)		
Production/ Filming 5 pts.	Composition follows the rule of thirds. Video includes a variety of static and smooth, dynamic shots. The background in each shot enhances composition. Static shots have no camera shake. Subject is appropriately framed in the shot. (5)	Most shots follow the rule of thirds. Video includes a mix of static and dynamic shots. Static shots have little camera shake. Subject is appropriately framed in the shot. (3)	Some shots follow the rule of thirds. The background in some shots occasionally distracts from the subject. Static shots have camera shake. Subject is not appropriately framed in the shot. (2)	Shots do not follow the rule of thirds. The background distracts from the subject. Static shots have camera shake. Subject is not appropriately framed in the shot. (1)
